

Bay Vigil

Our call to stop the dredging of Port Phillip Bay.

Calling all lovers of the Port Phillip and Westernport Bays

To save the well being of these cherished and beautiful Bays.

We love the
fish, seals, dolphins, seahorses, the octopi, birds
And all our sea animals.

We love the starfish, the shellfish, the reefs,
the seaweed and grasses,
the coral and plankton,
the world under the sea.

We love to swim in the water
and play in the sand.

Our marine parks are precious
and the damage
will take many years to heal.

Show your support for all community groups and businesses campaigning
to Save our Bays

Choose a spot along the beach (Port Phillip)

Shine a light:
a torch, solar light or lantern
for the Bays.

Tuesday
8th January 2008
8.30 (dusk) to 10 pm

bayvigil.org

Millions of tonnes of toxic silt stirred up = polluted sea and beaches.
This MEGA dredging project, one of the largest in the world, WILL allow more water in and out the Bay
and WILL change the tides.

Dredging would be full on for two years!
There is no adequate method to deal with damage to the Bay and businesses
